

Dear Future Fifth Grade Parents,

Welcome to the Meigs Academic Magnet Middle School fifth grade math department! We wanted to take this opportunity to inform you of the best mathematical practices you can be doing during the summer to prepare your child for fifth grade math:

Our 5th Grade Best Mathematical Practices:

- ✓ **Fluency with multiplication fact tables (0-12)**
- ✓ **Familiarity with unit fractions and decimals**
- ✓ **Perseverance to complete activities**
- ✓ **Strong work ethic**

Some suggestions to prepare for math class at Meigs include daily practice with flashcards or a variety of online math games. Throughout the course of the school year, we will introduce new websites and apps for the kids to use.

We are looking forward to meeting our new students and guiding them down this mathematical journey of self-discovery.

Yours until they calculate the next digit of pi,

Mr. Johnson, Mrs. Culp, and Mrs. Kirby
